Properties of Vensafe:

Modular system:

The system logs every transaction

Graphic stock overview:

SMS warnings:

Benefits for the retailer:

Combine Zervio Master with one or more Zervio Extra additional dispenser with or without cooling function

The system will tell if the specific product card/receipt is paid for, and if that product has been retrieved or not. A time stamp is displayed

To facilitate daily operations of refilling. The screen will show stock level of each ejector and which products need refilling. These are marked with red color in the overview

Avoid sold out situations, by receiving an sms when it is time to refill the dispenser
